

ISO 2022 testing simplified

Unifits Customer Onboarding: simplify onboarding for your corporate customers

Onboarding for corporate customers to your e-banking channels made easy

The Unifits Customer Onboarding simplifies and accelerates the onboarding process to your e-banking and allows effortless self-service and end-to-end testing for your corporate customers. The software is much more than just a portal to validate messages, it also simulates the behaviour of your bank with regard to client reporting.

At a glance

- ✓ No more effort for the bank thanks to an unattended, self-service oriented test portal
- ✓ Results are immediately available, **no time lag** between customer request and response
- ✓ Enormous **increase in customer satisfaction**
- ✓ Raised transparency about customers test progress due to **comprehensive statistics**
- ✓ **Smooth go-live** with customers and reduced operational risks

TRUSTED BY THE INDUSTRY | CUSTOMER EXAMPLES

Customer Onboarding for a new age

The application offers validation for all types of order transmissions. It simulates client reporting and incoming transactions through a virtualized booking engine and provides self-registration and ease to use with no training required. It provides security and reliability, attested through external penetration testing while comprehensive statistics give you full transparency on the testing progress of your corporate customers.

THE SMARTER SOLUTION

Simplify onboarding for corporate customers

- ✓ Significantly accelerated onboarding to your e-banking
- ✓ Effortless self-service and end-to-end testing for your customers
- ✓ Happy customers due to excellent onboarding support

Our Customer Onboarding Platform provided by Unifits allows every software partner or bank client, who is affected by the Swiss payment migration, to conduct independent testing.

Besides the fact that Unifits' solution increased our own efficiency for client onboarding by factors, it added enormous value to our clients by giving them an unattended 24/7 "self-service" that saved also their efforts and improved the overall quality at the very same time.

Unifits' passion for ISO 20022 and quality assurance combined with the great collaboration and their outstanding solutions made the partnership a pleasure.
